

1011 Torrential Rain – 3rd Intelligence Judgement Conference and 4th Work Report of Central Emergency Operations Center

I. Time: October 15, 2017 at 09:00

II. Place: Central Emergency Operations Center (CEOC)

III. Chairman: Director, Shen Jong-Chin

Recorded By: Chen Bin-Shun

IV: Reported Matters: omitted

V: Directions from the Director:

1. In regards to all the items and work report resolution items when the Premier oversaw yesterday, all functional teams shall do their duties to handle them and take the initiative to provide the latest rescue progress and response action of the government to the media and offer the necessary description and explanation at any time in order for the people to realize government's effort for disaster response.
2. Due to continuous rainfall for many days, many sites with roads interrupted, the transportation engineering team shall supervise to urgently repair the roads and finish the repair as scheduled. Considering that tomorrow is the office day, please take advantage of the multiple transmission channel to publish the instant traffic information to the public and well prepare the distribution project in advance. In addition, please clarify the information about the recovery situation of the Provincial Highway No. 7 to the media.
3. In regards to the disaster of mudslide, such as Chihpen Resort, the Council of Agriculture assisted to build stone gate at the hotel in 2014. After investigation, muds and rocks were piled behind the stone gate. So, The team of agriculture, forestry, fishing and animal husbandry shall continue giving necessary assistance to complete the recovery after disaster as soon as possible.
4. At present, there are still some places with cumulative

water not retreated yet in Hualien County and Taitung County. Please the team of water and electricity lifeline shall continue grasping the cumulative water retreated situation from the local governments and assist the local governments to retreat the water promptly.
