

# **1011 Torrential Rain – 3<sup>rd</sup> Work Report of Central Emergency Operations Center**

I. Time: October 14, 2017 at 18:30

II. Place: Central Emergency Operations Center (CEOC)

III. Chairman: Director, Shen Jong-Chin Recorded By: Lee Ju-Huang

IV: Reported Matters: omitted

V: Directions from the Director:

1. In the aspect of transportation: because of continuous rains for many days, mountain areas and provincial highway No. 7 have roads interrupted. Please pay attention to local people's safety and full supply of living material. The relevant road repairs shall be finished as scheduled.
2. In the aspect of mudslide: As estimated by the Central Weather Bureau, in the future mountain areas still might have intermitten heavy rains. The rainfalls at northern and eastern areas are still accumulated. Red and yellow mudslide warning zones are still increased. The team of agriculture, forestry, fishing and animal husbandry shall remind the local governments of fulfilling the implementation of necessary evacuation.
3. In the aspect of vegetable prices: The team of agriculture, forestry, fishing and animal husbandry shall grasp the prices of people's living supply and adjust the market supply and demand at proper time.
4. In the aspect of accommodation: The accommodation team shall grasp the information of special weather report about rainfalls. When the tribes in the mudslide warning zones still have potential danger, the accommodation works must be made well.

VI: Prompts from the Premier:

1. Though typhoon "Khanun" did not land in Taiwan, the effect of the peripheral circulation accompanied with northeast monsoon have caused the cumulative rainfall up to start the mechanism of the Central Emergency

Operations Center. Last night (13<sup>th</sup>) at 11:30, Level 2 Emergency Operations Center was established to fully grasp the impact of torrential rain and response actively. Thanks for the effort from all the colleagues. Thank you very much for all your hard work.

2. The blocked roads at the provincial highway No. 7 has caused inconvenience to the living of people. Tonight (14<sup>th</sup>), please pay more attention to the supply of people living material. For the related road repair schedule, please complete it as scheduled.
3. At present, there are only 19 households with suspended electricity, but Taipower Co has been asked to repair and recover power supply as soon as possible.
4. Please take the initiative to provide the latest rescue progress and response action made by the government to the media for people's convenience to understand government's effort for response. For each disaster reported by the media, please make the necessary description and explanation at any time.
