

1011 Torrential Rain – 2nd Work Report of Central Emergency Operations Center

I. Time: October 14, 2017 at 15:00

II. Place: Central Emergency Operations Center (CEOC)

III. Chairman: Deputy Director, Fan Chih-ku

Recorded By: Lee Ju-Huang

IV: Reported Matters: omitted

V: Directions from the Director:

1. The cumulative rainfall at northern and eastern areas keeps increasing. Ministry of Economic Affairs is requested to go on monitoring and grasping the relevant disaster information. For the flooded areas, please cooperate with government's request to dispatch water pump to support rescue works aggressively.
2. Evacuation Team and Accommodation Team shall continue to grasp rainfall situation and supervise all counties/cities governments to conduct evacuation measures according to rain situation at tribes published with mudslide warnings and make shelter works well.
3. It happens to be holiday today and tomorrow, so the Transportation Engineering Team shall advocate and publish the traffic control situations of land, sea and air transportation to the public by all kinds of media. For the interrupted roads, Transportation Engineering Team shall make effort to repair them and report the latest recovery progress to the people at proper time.
4. As for the disaster and information reported by media, each functional team shall grasp the accurate information and take advantage of press conference to explain government's action to the media.
5. The electricity at some areas are damaged by the strong wind, so the Water and Electricity Lifeline Team shall urgently repair and recover the power supply according to rain situation.
