### B. Lifeline damage (Source: Ministry of Economic Affairs, National Communications Commission)

Unit	Item	Scale of impact	Emergency repairs completed (Households, Sites)	Awaiting repairs (Households, Sites)	Remarks
Ministry of	Water supply	16250	0	16250*	Miaoli Region

Economic Affairs					<p>1. At 12:00 on August 21, the southern water pipe (ø500) of Yuanli Township's Huoyenshan Open Tunnel had been cut by debris flow. This reduced the water pressure to approximately 16,000 households in Yuanli Township, Tongxiao Township, Xiu Township (Erhu Village, Sanhu Village, Shihu Village, Hudong Village, Longdong Village) and Houlong Township (Zhonghe Village, Nangang Village, Fu'ning Village). The water supply was cut off as of 22:00, August 21. The outage is expected to last a total of 72 hours from 22:00 August 21 through to 22:00 August 24.</p> <p>2. Persistent strong winds and rains as well as continued debris flow is making emergency repairs impossible. District 3 engineers and emergency repair contractor is now standing by with machinery and materials. Emergency repairs will commence once the typhoon has passed and the rain stops. 10 temporary water stations will be set up with water drums and tankers. The temporary water stations will be set up at 08:00 on August 22 after the typhoon passes and made available to the public.</p> <p>*Taichung Region Due undermining of the 500mm pipeline used by No. 3 District's Tongxiao Depot to support Dajia operations, auxiliary water flow has been reduced by approximately 5000 CMD. Backup wells have been activated to fill the gap. Xinfu Village and Taibai Village in Dajia are now experiencing reduced water pressure (250 households).</p>
