About the abandoned ship off Pingtung County

(Data Source: Ministry of Transportation and Communications)

- 1.The Maritime and Port Bureau, MOTC, the Coast Guard Administration (CGA) and the Environmental Protection Administration have established a response team and are keeping abreast of the ship's situation at all times.

2..The Maritime and Port Bureau is continuing to instruct the coastal radio station to broadcast the position the ship and call on vessels to avoid sailing through this area to avoid a collision.

3.At present the waves large are too large to attempt to salvage the ship. Helicopter inspection shows that the ship has no hatch covers and the cargo hold is taking on water. It is thought that the ship will either sink or run aground during the typhoon.

4.EPA has an oil containment boom and other emergency response equipment in place at the 63rd Coastal Patrol Corp base at Nanren Fishing harbor for use as required.

5.The ship's International Maritime Organization number has been found and this is now being used to try to find the ship's basic information and owner.

7. The Maritime and Port Bureau held the first emergency response meeting with Pingtung County Government today (21) and it is planned to hold the second work meeting on September 23, 2014.
